Summary

- **From the spreadsheet, the top choices are: 21 (CSOM Promotion), 26(Event-High School camp), 27(Event- Host a High School teacher conference), 36(IDSc Course Content) Event- (MIS Marketing Fair)**
- The spreadsheet contains the information that we discovered as well as information on the status of initiatives that are already under way. In addition, the IT camp article posted at <http://www.misrc.umn.edu/eabc/meetings> talks about a High School camp initiative that was undertaken by University of Cincinnati. It talks about an industry academia partnership towards very similar goals.
